Project Development Time Taken : Around 12 days and still going on...

Problem Statement 06 | **Travel & Tourism**

Problem Statement

ಸಮಸ್ಯೆ ಹೇಳಿಕೆ

The Problem

- Heritage, wildlife, beaches, hills and food spread across very different regions
- Hard to balance interests, days and budget
- Generic plans zig-zag across the state

Who Is Affected

- First-time visitors from India and abroad
- Families, couples, solo and student travellers
- Non-Kannada speakers facing a language gap
- Local tourism businesses

Why It Matters

- Tourism supports livelihoods and local culture
- Lesser-known places stay undiscovered
- A confusing first trip means no return visit

Existing System

ಈಗಿರುವ ವ್ಯವಸ್ಥೆ

How travellers plan today

Travel blogs and listicles
One-size-fits-all top-10 lists

Booking portals and OTAs
Good for tickets, weak at planning

Travel agents
Costly, fixed packages

Generic AI chatbots
Fluent, but not grounded in data

Limitations and gaps

Not personal
Ignores interests, season, budget

Scattered
Routes stitched manually across many tabs

Unreliable
AI can invent places, timings and costs

Not local
English-first, little Kannada or culture

How Our Solution Is Different

ನಮ್ಮ ವಿಶೇಷತೆ

Aspect	Usual approach	Karnataka Yatra · ಕರ್ನಾಟಕ ಯಾತ್ರೆ
Personalisation	Same top-10 list for everyone	**Interests + days + budget + style**
Place data	LLM may invent places or timings	**Curated dataset; AI only narrates**
Route logic	Zig-zag, manual stitching	**Geo-clustered, nearest-neighbour**
Budget	Rough totals, no breakdown	**Stay, food, transport and fees split**
Language	English only	**English / ಕನ್ನಡ + phrases**

Our Approach

ನಮ್ಮ ವಿಧಾನ

1 Understand
Interests, days, budget, style, month

2 Score and match
Rank places by interest and best season

3 Cluster and route
One region per day, nearest-neighbour order

4 Fit the budget
Auto stay tier, fees, food and transport

5 Narrate
AI explains in English or ಕನ್ನಡ

Key design decisions

- Data first, AI second: the engine decides, the AI explains
- Geography beats guesswork: no zig-zag days
- Works with or without an API key

Data → Engine → AI

The Planner Engine

ಯೋಜನಾ ಎಂಜಿನ್

Interest match

Heritage, wildlife, beaches, temples, food and more

Season fit

Places ranked by best months for your travel month

Geo clustering

Each day stays in one region, in nearest order

Budget fit

Stay tier adjusts; over or under budget warning

Stops per day

2–3	Relaxed
3–4	Balanced
4–5	Packed

Key Features

ಪ್ರಮುಖ ವೈಶಿಷ್ಟ್ಯಗಳು

AI itineraries

Day-by-day plans with a 'why this suits you' line for every stop

Live route map

Numbered stops and colour-coded day routes on OpenStreetMap

Budget breakdown

Donut chart of stay, food, transport and entry fees

Swap and regenerate

Replace any stop with a similar one, or re-plan in a click

Destination explorer

40+ places with filters, search and best-season info

Print and download

Copy, print or save the plan as text for offline use

The Kannada Touch

ಕನ್ನಡ ಸ್ಪರ್ಶ

ಅತಿಥಿ ದೇವೋ ಭವ

Atithi Devo Bhava · The guest is God

English | ಕನ್ನಡ

Taste of Karnataka

ಮೈಸೂರು ಪಾಕ್ · ಬೆಣ್ಣೆ ದೋಸೆ · ರಾಗಿ ಮುದ್ದೆ

Festivals

ದಸರಾ · ಹಂಪಿ ಉತ್ಸವ · ಕಂಬಳ

Kannada phrases ನುಡಿಗಟ್ಟುಗಳು

ನಮಸ್ಕಾರ	**Namaskara** Hello
ಧನ್ಯವಾದಗಳು	**Dhanyavadagalu** Thank you
ಇದು ಎಷ್ಟು?	**Idu eshtu?** How much is this?
ತುಂಬಾ ಚೆನ್ನಾಗಿದೆ	**Tumba chennagide** It is very nice

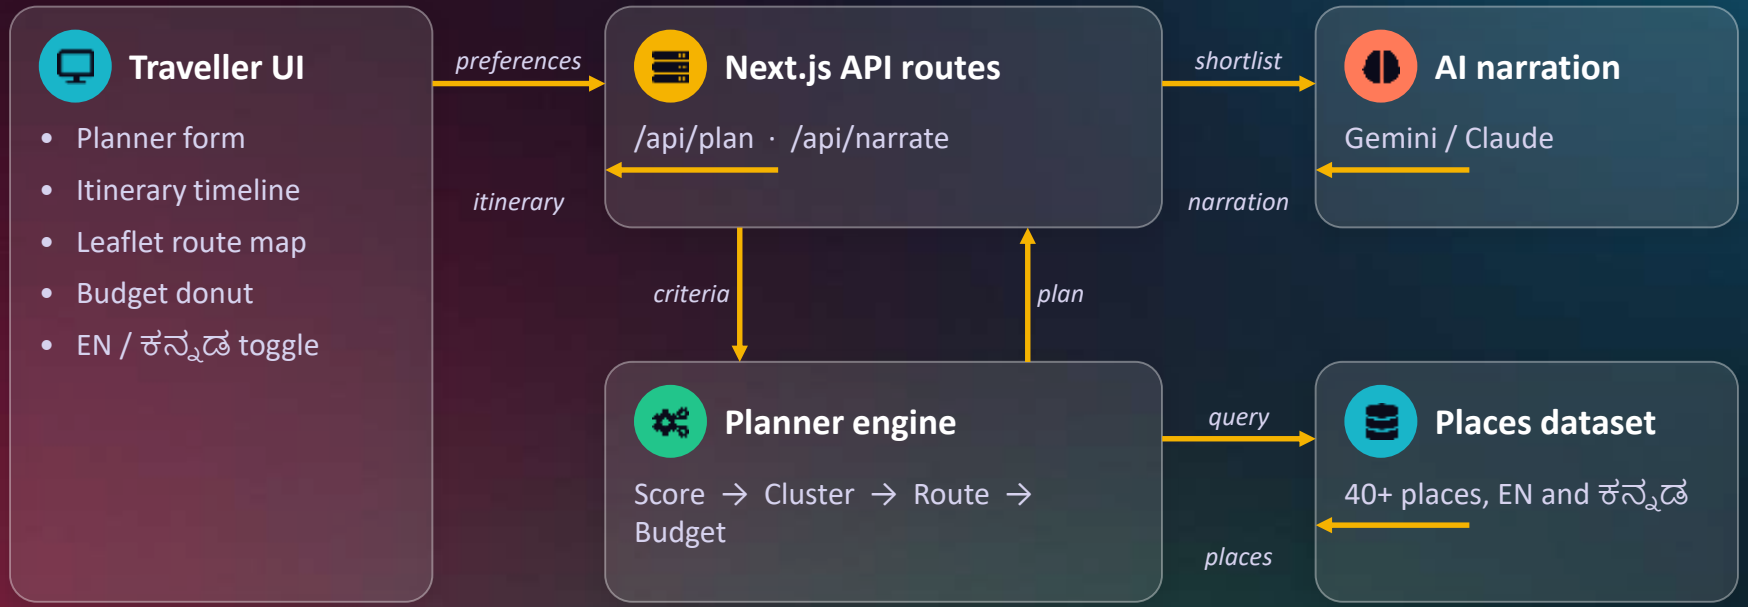

Tech Stack

ತಂತ್ರಜ್ಞಾನ

Frontend	Next.js 14 · TypeScript · Tailwind CSS · Framer Motion
Maps and charts	React-Leaflet + OpenStreetMap · Recharts · Lucide icons
AI layer	Gemini / Claude API for narration, with template fallback
Planner and data	Typed dataset of 40+ places · Haversine · rule-based planner
Language	EN / ಕನ್ನಡ dictionary · Noto Sans Kannada · speech kn-IN
Hosting and tooling	Vercel · GitHub · secrets via .env (.env.example provided)

System Architecture

ವ್ಯವಸ್ಥೆಯ ವಿನ್ಯಾಸ

No API key? Rule-based planning plus template narration keeps the app running.

Sample Itinerary

ಮಾದರಿ ಪ್ರಯಾಣ ಯೋಜನೆ

Day 1 ದಿನ ೧

Royal Mysuru

1. **Mysuru Palace**
   ಮೈಸೂರು ಅರಮನೆ
2. **Chamundi Hills**
   ಚಾಮುಂಡಿ ಬೆಟ್ಟ
3. **Brindavan**
   ಬೃಂದಾವನ ಉದ್ಯಾನ

≈ ₹5,200 / day

Day 2 ದಿನ ೨

Heritage to hills

1. **Srirangapatna**
   ಶ್ರೀರಂಗಪಟ್ಟಣ
2. **Dubare Camp**
   ದುಬಾರೆ
3. **Abbey Falls**
   ಅಬ್ಬಿ ಜಲಪಾತ

≈ ₹5,100 / day

Day 3 ದಿನ ೩

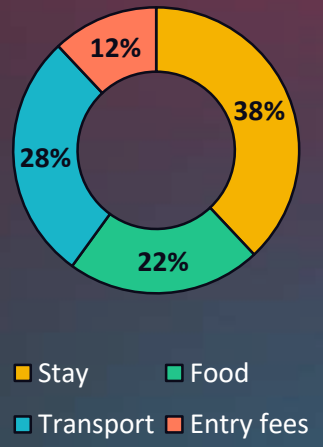

Coffee and culture

1. **Madikeri**
   ಮಡಿಕೇರಿ
2. **Coffee estate**
   ಕಾಫಿ ತೋಟ
3. **Kodava meal**
   ಕೊಡವ ಊಟ

≈ ₹4,700 / day

Illustrative budget

₹15,000 · 3 days

Conclusion

ಉಪಸಂಹಾರ

Summary

- Bilingual AI planner built for Karnataka
- Data-first engine: scores, clusters, fits budget
- AI narrates and never invents places
- Map, budget, phrases and food in one place

Impact

- Plans a trip in minutes, not hours
- Spotlights lesser-known destinations
- Brings the Kannada language to every visitor
- Supports local tourism and culture

Future scope

- Booking and live transport integration
- Voice-based planning in Kannada
- Offline-first PWA for remote areas
- Weather-aware re-planning and community gems

ಧನ್ಯವಾದಗಳು

Thank You
